

FOURGONNETTE

PRODUCED UNDER LICENSE

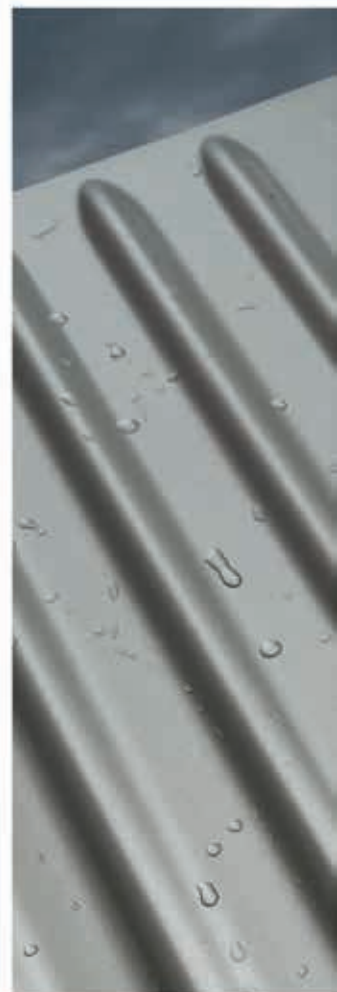

A JOURNEY THROUGH TIME

The New Fourgonnette is a modern "lifestyle" representation, drawing inspiration from the legendary 2CV AU launched in 1951, which - together with its descendant, the 2CV AZU launched in 1954 - proved hugely successful in its time with nearly 1,247,000 units sold.

1951 Citroën 2CV 250AU First series

The timeless codes of the iconic van have not been forgotten: created as a complete conversion kit on Berlingo base, the New Fourgonnette evokes the beloved 2CV Van. The vehicle features generous rounded bonnet, imposing flared M-shaped grille proudly sporting Citroën's chevrons, ripple bonnet, hooded headlights and corrugated sheeting on the sides, rear and roof sections. An "M" sized (4.43 m) commercial vehicle and crew-cab version are available for professionals, and a leisure version is also produced for carrying people.

2023 New Fourgonnette on Citroën Berlingo base

FOURGONNETTE **PANEL VAN**

The design of the New Fourgonnette is the result of the collaboration between the dedicated design team of Citroën, Fabrizio Caselani and David Obendorfer. The creation of the model presented a real challenge for our design team, because the original 2CV Van had completely different proportions compared to the contemporary architecture of the Berlingo. It had a very short front overhang, a nice long bonnet and a visually stand-alone cargo area. So we focused more on an overall evocative aspect of the original vehicle rather than straining the individual design elements to make them look like the old 2CV.

Compact panel van version with 4.4 m³ loading capacity based on the Citroën Berlingo Van Club 2 or 3-seater with hand-built vintage style kit. Available with 130 hp Blue HDi diesel engine or 110 hp Puretech petrol, also with automatic transmission. You can also choose the full electric version based on the e-Berlingo Club with a 50 kW battery pack and 136 hp power.

COLORS

WHITE - Pastel

ARTENSE GREY - Metallic

IRISÉ GREY AC 109 - Metallic

PAPYRUS GREEN AC 536 - Metallic

WEEK-END BLUE AC 625 - Pastel

JADE GREEN AC 539 - Pastel

MATINAL GREY AC 081 - Pastel

ROSÉ GREY AC 136 - Pastel

LAGUNE BLUE AC 639 - Pastel

ATACAMA YELLOW AC 363 - Pastel

THASOS BLUE AC 131 - Pastel

NEVADA BEIGE AC 074 - Pastel

CONCRETE GREY RAL 7033 - Pastel

Our Fourgonnette color palette consists of 2 Berlingo paint finishes and 10 historic Citroën colors from the 60s and 70s. In addition to these options, you can also choose our special 'Concrete Grey' tone, as well as a 100% custom paint, or you can order the Fourgonnette with your company's livery.

FOURGONNETTE CREW-CAB VAN

Double-cab people carrier based on the Citroën Berlingo Combi. Up to 5 seats. It has a length of 4.43m and it is available with a 130 hp Blue HDi diesel engine or 110 hp Puretech petrol, also with automatic transmission. It is also possible to choose the full electric version based on the e-Berlingo CLUB with 50 kW battery pack and 136 hp power, which is classified as a commercial vehicle.

FOURGONNETTE **PASSENGER VAN**

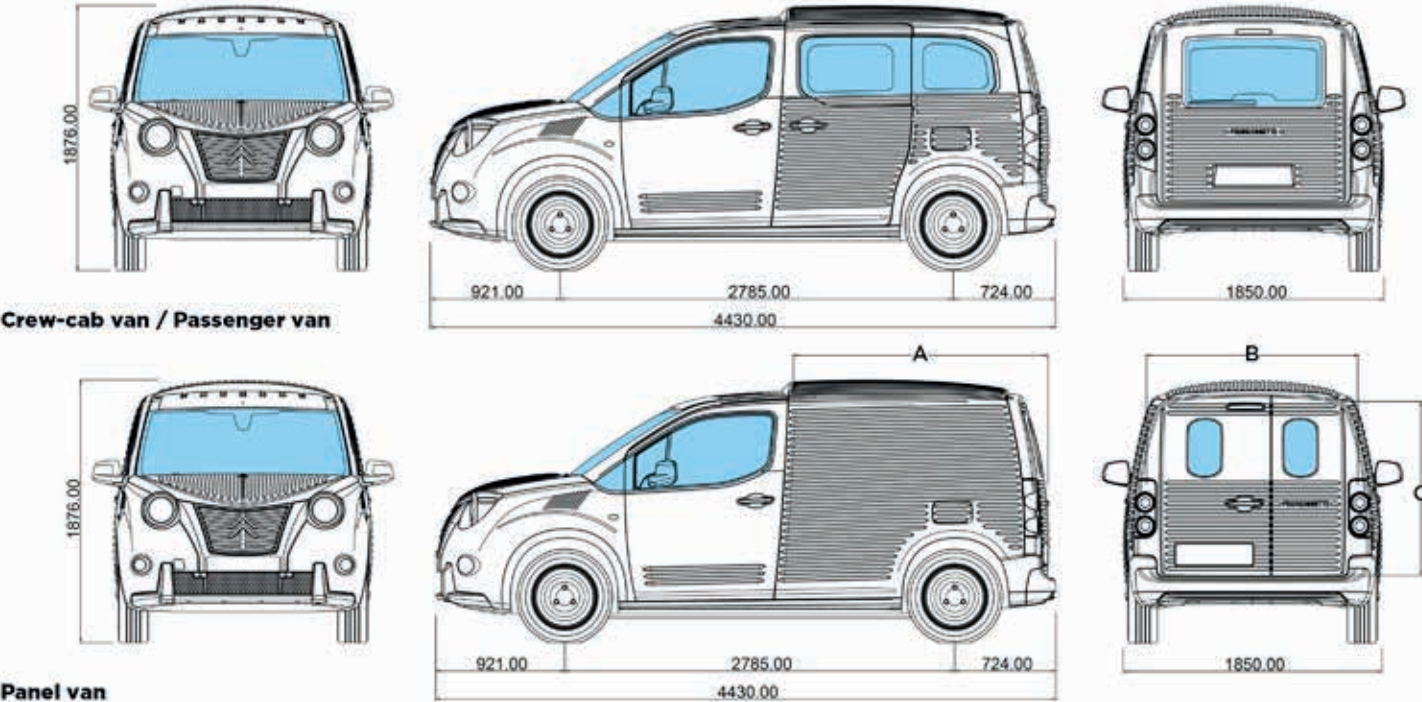

The Passenger Van version is based on the Citroën ë-Berlingo Electric, and it offers optimal comfort for all its passengers. The leisure activity vehicle has unparalleled airiness and incredible storage volumes. Combine this with the ë-Berlingo Electric's fully electric motor and EAT8 automatic gearbox and the result is a smooth quiet driving experience you'll love.

The interior of the New Fourgonnette simply exudes peace and practicality. In the back everyone enjoys the same comfort regardless of where they are sitting thanks to the three individual seats that are all the same width. They can be folded separately or together into the floor, creating a flat surface.

OUR VEHICLE RANGE

Type H, Type HG and the New Fourgonnette

With the Fourgonnette we round off our Type H range. The vintage-style body kit was developed to be precisely fitted to the exterior of the Berlingo, while keeping the structure and safety devices of the base vehicle intact. Berlingo's front end panel has been completely overhauled, revealing the features that were so characteristic of the old 2CV from days gone by. The grille, bumper and wheel arches have been replaced by new fibreglass components adapted to the frame, which integrates clips and bolts for attaching them. All of these components are assembled at Caselani's factory in Sospiro (Cremona), Northern Italy, with artisanal method. The hand-made assembly process from the lamination phase of the fibreglass body parts to the final painting and polishing of each Fourgonnette model requires 400 working hours.
